

OM PRODUKTET

This projection warning light projects visual warnings around forklifts and heavy machinery to increase safety.

FORDELE

Long lifespan

Low power consumption

Doesn't tire the driver's eyes

Hardly any heating, so risk of fire or burns is limited

Red is associated with danger

Well-known, and therefore recognisable

Silent solution to warn pedestrians

OMSKRIVELSE

Safety is of the utmost importance when it comes to working with and alongside heavy machinery. This projection warning light is the perfect silent warning system. It projects visual warnings, such as spots, arrows or lines, providing everyone nearby with essential information about how to stay safe near the machine. This LED projection warning light offers a long lifespan with low power consumption. It isn't harsh on the eyes and hardly heats up at all, so there's no risk of fires or burns. Plus, it's environmentally friendly. This round projection warning light is already well-known in many warehouses. It projects a spot that's easily recognised by employees. The colour red is automatically associated with danger, so a red projection warning light encourages people to pay attention and respond quickly.

SPECIFIKATIONER

Shape of the housing	oval
Shape of the projection	round
Colour of the projection	red
Flashing projection	NO
Total length (L1) (mm)	140
Total height (H1) (mm)	130
Total width (W1) (mm)	117
Width of the housing surrounding the lens (W2) (mm)	98
Wire Length (L3) (mm)	320
Bracket present	YES
Position of attachment	pedestal
Number of mounts	1
Type of mounting	screw

Thread size of the external thread	M10
Minimum voltage (U1) (V)	12
Maximum voltage (U2) (V)	80
Type of connector	connector 1
Number of connectors	1
Number of pins in the connector	2
Bulbs included	NO
Replaceable lens	NO
Material of the lens	plastic
Number of LEDs	2
Power (W)	6
IP-value (water- and dustproof)	IP67
