

OM PRODUKTET

This 1 projection warning light projects visual warnings around forklifts and heavy machinery to increase safety.

FORDELE

Long lifespan

Low power consumption

Doesn't tire the driver's eyes

Hardly any heating, so risk of fire or burns is limited

Blue is highly visible on concrete

OMSKRIVELSE

Safety zone alongside the machine

Silent solution to warn pedestrians

Projects a blue spot on the floor, a few metres in front of the forklift

Helps to improve safety on the shop floor

Off-road use only

Safety is of the utmost importance when it comes to working with and alongside heavy machinery. This projection warning light is the perfect silent warning system. It projects visual warnings, such as spots, arrows or lines, providing everyone nearby with essential information about how to stay safe near the machine. This LED projection warning light offers a long lifespan with low power consumption. It isn't harsh on the eyes and hardly heats up at all, so there's no risk of fires or burns. Plus, it's environmentally friendly. This projection warning light creates a square no-go box alongside a machine, making it easy for people to see the areas they need to avoid. For ultimate safety, combine multiple lights. This blue projection warning light is highly visible on concrete surfaces. This makes it particularly useful and easy-to-see in warehouses.

SPECIFIKATIONER

Shape of the housing	oval
Shape of the projection	square
Colour of the projection	blue
Flashing projection	NO
Total length (L1) (mm)	139
Length of the housing surrounding the lens (L2) (mm)	136
Total height (H1) (mm)	132
Height of the housing surrounding the lens (H2) (mm)	96
Total width (W1) (mm)	117
Width of the housing surrounding the lens (W2) (mm)	114
Wire Length (L3) (mm)	300
Bracket present	YES
Position of attachment	pedestal
Number of mounts	1
Type of mounting	bolt
Thread size of the external thread	M10
Metric pitch of the external thread (mm)	1.5
Right thread/left of the external thread	right-handed
Minimum voltage (U1) (V)	12
Maximum voltage (U2) (V)	110
Type of connector	connector 1
Number of connectors	1
Number of pins in the connector	2

Bulbs included	YES
Replaceable lens	NO
Material of the lens	plastic
Material of the housing	aluminium
Number of LEDs	2
Power (W)	6
IP-value (water- and dustproof)	IP67
Explosion proof	NO
